

AI Smart Examination Report

Official Performance Evaluation Summary | Exam ID: ee4326e5-cb7f-445b-bc93-fedca805d130

Candidate Name: Mohit	Date & Time: 2026-08-03 18:45
Subject: HTML	Time Taken: 0.6 Mins
Difficulty: Intermediate	AI Provider: Mock
Score: 3 / 30	Percentage: 10.0%
Grade: Fail	Status: Fail

Question Evaluation Breakdown

#	Question	Your Answer	Correct Answer	Result
1	What is the primary core principle underlying HTML when designing robust sc...	B	A	Wrong
2	In HTML, which architectural pattern is recommended for decoupling event pr...	D	D	Correct
3	When optimizing performance in a HTML environment, what is the best strateg...	B	B	Correct
4	Which security best practice should be applied when managing confidential p...	B	C	Wrong
5	What is the consequence of failing to validate external user input within a...	C	C	Correct
6	Which data structure is optimal for fast O(1) key-based lookups in HTML?	Skipped	B	Skipped
7	In modern HTML development, what does the term 'Idempotency' refer to?	Skipped	C	Skipped
8	How does automated unit testing contribute to overall code quality in HTML ...	Skipped	D	Skipped
9	What is the main advantage of containerization (e.g. Docker) in HTML applic...	Skipped	D	Skipped
10	Which metric is critical for monitoring system availability and health in H...	Skipped	B	Skipped
11	What is the primary core principle underlying HTML when designing robust sc...	Skipped	A	Skipped
12	In HTML, which architectural pattern is recommended for decoupling event pr...	Skipped	B	Skipped
13	When optimizing performance in a HTML environment, what is the best strateg...	Skipped	A	Skipped
14	Which security best practice should be applied when managing confidential p...	Skipped	B	Skipped
15	What is the consequence of failing to validate external user input within a...	Skipped	B	Skipped
16	Which data structure is optimal for fast O(1) key-based lookups in HTML? (S...	Skipped	C	Skipped

17	In modern HTML development, what does the term 'Idempotency' refer to? (Sce...	Skipped	C	Skipped
18	How does automated unit testing contribute to overall code quality in HTML ...	Skipped	D	Skipped
19	What is the main advantage of containerization (e.g. Docker) in HTML applic...	Skipped	D	Skipped
20	Which metric is critical for monitoring system availability and health in H...	Skipped	B	Skipped
21	What is the primary core principle underlying HTML when designing robust sc...	Skipped	B	Skipped
22	In HTML, which architectural pattern is recommended for decoupling event pr...	Skipped	D	Skipped
23	When optimizing performance in a HTML environment, what is the best strateg...	Skipped	D	Skipped
24	Which security best practice should be applied when managing confidential p...	Skipped	A	Skipped
25	What is the consequence of failing to validate external user input within a...	Skipped	A	Skipped
26	Which data structure is optimal for fast O(1) key-based lookups in HTML? (S...	Skipped	C	Skipped
27	In modern HTML development, what does the term 'Idempotency' refer to? (Sce...	Skipped	A	Skipped
28	How does automated unit testing contribute to overall code quality in HTML ...	Skipped	C	Skipped
29	What is the main advantage of containerization (e.g. Docker) in HTML applic...	Skipped	A	Skipped
30	Which metric is critical for monitoring system availability and health in H...	Skipped	A	Skipped
